Miss C. H. Wheeler
Miss P. H. Wheeler, Manager
Care Monroe, Utah
1884 Sept 28

Dear Miss Hainie

You doubtless would like to know how I am getting along in the work here. I can say that it is very encouraging. Notwithstanding the bitter opposition that we have had to contend with this Fall, They have stoutly refused us any of the Public funds for our school. They (Board of trustees) wrote me quite an insulting note stating that they should not employ me. I was fearful at one time that my school would be quite small this year, but it bids fair now to be quite large. I don't think I ever saw the children so eager to learn and so anxious to be perfect in their department as they are at the present time. There are 8 young ladies attending school. It is a delight to teach them. They are so studious. Our Sabbath School is in a pros-

previous condition. The attendance during vacation was very irregular, as it usually is in all the settlements. I was absent a number of weeks. that accounts partly for the irregularity, but the main cause is this: They are not so directly under our influence during vacation as they are while the day school is in session. and they do dislike being confined even for a short time in warm weather, but as school opens. and we are all together again. the S. School is coming up to its regular standpoint again. Rev P. D. Stoops who has recently been commissioned for this place and Richfield has a class of 8 young ladies and one young man, He rides out to Monroe every other Sabbath and assists me with the S. School. and holds preaching services in the evening. He generally have good audiences at these services, He is teaching my pupils vocal music, They are learning well. He has the faculty of interesting

them. and is quite a good musician.
He is quite a young man. but I think
he will readily adapt himself to the
work. as he is earnest and does not
lack courage. I still have the sewing
class. The children are already looking
forward to Xmas. wondering if we will
have as pretty a tree as we had last year.
I tell them I hope so but can't tell yet.
I know I shall have some help from the
East. perhaps not as much as I had last
year. I attended our last meeting of Pres-
bytery, which was held at Ogden (37 miles
north of Salt Lake City) Pres. adjourn-
ed. We visited the warm Sulphur Spring
a little north of Ogden. I enjoyed the meet-
inge very much. The reports from the va-
rious Mission fields were encouraging.
Now as regards the "Organ". We have had
it about one month. We are using it but
it does not work well at all. It is an old
worn out instrument. Perhaps Mr Boyd
has told you what a time we were having
